

Some people think a lot of scientific research done today is a waste of time and money. To what extent do you agree or disagree?

Nowadays, scientific research is important because it has a direct bearing on our living standards and well-being. Although some people regard scientific research as an unimportant item, I reckon that the study of science has a huge influence on our lives. 这一段是文章的介绍段(introduction), 正式写作的 introduction 应包含背景介绍+话题引入+自己观点。开头基本符合上述结构要求, 没有太大问题。建议在第一段的最后出现明显的字眼 agree or disagree 去强调你整个作文的基本立场。

To begin with, a tremendous number of scientific work outcomes have improved our health 1.as some outcomes are about boosting medical technology. The state-funded scientific research on new drugs, for example, has successfully helped us find a cure for some 2.previously fatal diseased. Therefore, some patients who suffer from the 3.previously incurable disease can recover now. This can improve our life expectancy. So 4.the study of science done is unlike to waste time and money.

1. 语言表达问题。

这部分表述不是很地道, about 放在中间导致表达过于中式化。建议改成: as some outcomes can boost medical technology。

2. 语言表达问题。

绝症: fatal disease。“曾经的绝症”建议改成: fatal diseases in the past。

3. 语言表达问题。

建议改成: incurable diseases in the past。

4. 语言表达问题。

这部分 done 出现很突兀, 影响句意的表达, 建议删去。

Furthermore, the results of scientific research can be used to earn money because some scientific outcomes are to meet the market demands. For instance, scientific research in agriculture has increased the yield of farmland and the use of intelligent robots has enabled factories to produce products faster 5.and at a lower cost. This means that some scientists can research some new robots or GM food to make profits, which can boost our living standards.

5. 语言表达问题。

at a lower cost 可以直接作为状语成分, 不需要加上 and, 建议删去。

6.On the other hand, some-the study of science may have a negative impact on society.

7.Some scientists applied many creative projects and governments have poured much money into these projects. 8.These researches took a long time but did not work outcomes. This means that governments have wasted time and money on these scientific researches. As a result, governments have to cut funds for other essential services like education, public transportation and medical services.

注意让步段的写法:

让步段写对方观点的内容不需要写这么多, 只需要简单写 1、2 句就可以了。

批注 [u1]: 复数: diseases。

批注 [u2]: 拼写错误: intellectual。

让步段必须包含“counterargument+rebut”，也就是除了写对方承认对方观点的好处外，还要对这个好处进行反驳。但这里你的反驳过少，导致让步段说服力不足。你这里要增加对对方观点的反驳。

#### 6. 语言表达问题。

没有 on the one hand 就不要用 on the other hand, 两个需要搭配使用。

the 多余，建议删去。改成：some studies of science。

#### 7. 语言表达问题

建议文章时态保持一致，改成一般现在时：some scientists apply many creative projects。

#### 8. 语言表达问题。

建议文章时态保持一致，改成一般现在时：These researches take...but do not...。work outcomes 常作为名词词组，表示“工作产出”。建议改成：get work outcomes。

In conclusion, although these scientific researches have caused some waste of time and money, the advantages that it brings to both our living standards and well-being are far more than disadvantages.

1. 语法：6 语法知识掌握程度较不熟练，文中存在一部分语法结构问题。加强语法的知识复习。

2. 内容与逻辑：6.5 能回答题目问题，能很好的提出自己的观点并围绕观点展开论证，逻辑比较清晰，文章论证的过程较好。

3. 连贯词：6.5 能有意识地使用连词，使得文章之间的连接和过渡相对自然，但仍存在部分衔接过渡不到位句子和使用不够到位的连词

4. 词汇：6.5 文章使用到的词汇形式基本能做到多样，但存在部分用词不当现象。语言的表达能力有待提升。
