

Some people think the qualities a person needs to become successful in today's world cannot be learned at a university or similar academic institutions. To what extent do you agree or disagree?

首先确定这是雅思写作中的 **argument** 题型。

(1) It understandable that some people today drop out of college (2) because there are successful entrepreneurs or business leaders who did not complete a university degree. They think they can gain successful qualities even though they cannot attend university. I would argue that what people learn at university is vitally important to a fulfilling career.

这一段是文章的介绍段(introduction)，正式写作的介绍段应包含背景介绍+话题引入+自己观点。对比你的介绍段，你的内容完整，表达要注意。以下介绍段供参考：

As the modern world is rapidly developing, the qualities that a person requires to succeed are in increase. Accordingly, a great number of people conclude that higher education offered by universities and institutions cannot help people learn good qualities ensuring their success. However, that conclusion should be viewed questionable if more aspects are taken into consideration.

(1) 固定句式谓语缺失，完善为：it is understandable that....

(2) 这里可以参考表达：influenced by those successful...

By learning theories at university, students may face some challenges which can make them become tenacious and foster their strong qualities. These students who do not achieve good results in exams or in competitions may develop some persistent qualities.

(3) And some subjects, assignments and theories (4) are difficulties, so students need to be patient and focused before they can learn. As a result, if they have these successful qualities in the workforce,(5) they may overcome difficulties and successfully cope with unusual demands of work.

(3) 正式写作中，and、but 都是不可以置于句首的，改为 what is more.

(4) 这里用形容词作表语更恰当：are difficult.

(5) 参考表达：it is more likely for them.

Academic study can also increase students' knowledge, (6) and they may become more like thinking, trying and meeting challenges. People who attend university can develop a habit of learning, so if they have some problems in the study or in life, they may search the web for relevant information or gather information. In addition, students can foster some critical thinking skills at university. They are sensitive to real-life problems and often find ways to solve them. As a consequence, they may wade through some technical problems and promote technological innovation.

(6) 句子表达不地道，参考：they may become more challenging.

(7) Students learnt at university are exposed to many different study tasks, and these tasks can build students' characters and cultivate their quality of interpersonal communication. For example, (8) if students who joint some teachers' laboratories, they can develop a sense of responsibility and foster teamwork abilities. This means

that they can form a strong relationship with each other, and a hard working and sociable person is able to cooperate with others to achieve success. They can learn leadership and respect others when they work with other people in the team.

(7) 后置定语不规范: student 跟 learn 是主谓关系, 应该用现在分词作定语, 改为: students learning at...

(8) 注意检查句意, 这里的 who 是多余的, 直接加上谓语即可, 删去 who.

这里的位置可以选择性发展一段让步段(对方观点+反驳+进一步论述自己的观点), 一般 2-3 句话。以下让步段供参考:

Admittedly, some people argue that graduates still have to learn a lot when enter the job market. However, what they gained in school has laid a solid foundation for their career development.

In conclusion, universities or academic institutions play an essential role in building people's characters and people can handle many problems effectively and creatively with these successful qualities they have acquired at university.

这一段是文章的总结段(conclusion), 正式写作中的 conclusion 段应包含前文总结+观点重申。对比你的总结, 基本是符合要求的。以下总结段供参考:

As analysed above, a conclusion can be safely arrived at that a majority of qualities, indispensable to one's future success, can be learnt in colleges or academic organisations. Without necessary learning and training, people's dreams might never be achieved and their loss will be disastrous.

总评:

根据题目要求, 这一篇雅思作文的结构应如下:

对比可以发现, 你的文章介绍段写的不错; 论述段逻辑基本清晰, 句子表达还要完善; 总结段内容基本符合要求。

文章论证不够到位的地位, 可以参考以下论证结构:

论据: 学生在学校所获得的知识/能力对未来事业的成功是有帮助的。

论证 1、掌握学习的途径和研究问题的能力在以后的职业生涯中十分重要, 这也恰恰是学校所能提供给学生的最基础的知识。

论证 2、在未来的职业发展中，拥有良好的心理素质也同样重要。而在学校等教育机构中，学生们可以轻易接触到心理健康教育。

论证 3、工作中熟练的社交技巧同样也可以在学校中获得：学生通过参与班级小组讨论，学校组织的集体活动等，不仅可以锻炼自己的沟通能力/表达能力，还可以增强自己的集体意识和合作精神。

让步段：的确，工作市场和学校是两个完全不同的环境，毕业生在进入工作市场后还要学习很多技能（如办公室软件/与上司相处的技能等）。然而，学生们在学校中所学到的知识和技能为他们的事业发展奠定了基础，且这些已经获得的知识是他们得到一份好工作的最低门槛。

总结段：学生在学校所获得的知识/能力对未来事业的成功是有帮助的。
