

In many countries women are allowed to take maternity leave from their jobs during the first few months after the birth of their baby. **Do advantages outweigh disadvantages?**

文章字数太多啦，一般在 250-300 字就好，考试没那么多时间的。

These days, many governments have imposed some laws which enable women to take a few months of maternity leave, (2) possibly because raising babies is not only the obligation of the family but also the responsibility of the society. Although taking maternity leave has some negative impact on work, I would argue that maternity leave can bring more benefits.

(1)这一段是文章的介绍段(introduction)，正式写作的 introduction 应包含背景介绍+话题引入+自己观点。

(2) raising babies 是家庭的义务和社会的责任？这里没有说到点上哦，应该说下女性生育的艰难和辛苦，所以才有法律批准的产假。

Taking maternity leave can help **recover women's body** and **increase physical strength** to cope with demands of work. **Because of this,** women **can have higher confidence** and satisfaction in work. Taking time to recover physical strength is very important for women who have just given birth to babies because women are weak at that time. If they are able to take maternity leave, they can have some time to rest and **supply their body** function. In this way, it can not only **improve women's health** but also **increase their confidence** in the workplace. This means that when they re-enter the workplace, they can perform well as before.

(1) 这里建议前面加上连接词 moreover/in addition...

(2) 这里一直在重复观点论述，一种观点阐述一遍就可以了哦，不用一直绕来绕去说同一件事情。

(1) Women can take care of their babies if they have maternity leave. By doing this, it can help their **babies grow healthily** and make their husbands focus on work. It is well known that the baby is **inseparable** from the mother (2) during the time of birth. (3) The mother needs to take care of everything about the newborn baby, such as breast-feeding, changing diaper and bathing. As a result, the baby **can grow healthily** with a good care. While women's husbands can have more energy to contribute to their work **and** so they can earn more money. If they have a well-paid job, they can improve their living standards like buying the best products for their babies.

(1) 学会使用连接词和短语，furthermore....

(2) 应该是 after birth? 但也不是不可分开的吧，只能说是由母亲照顾比较好。

(3) 这里前面可以加上 therefore。

(4) 需要丰富替换词的表达。

(5) 这里既然讲了两个观点，那么可以更有条理些，用上 first of all/besides 或者 on the one hand/on the other hand 等词。

On the other hand, maternity leave causes women to leave work for a few months. If they come back to the workplace, they may have a negative influence on companies' productivity. (1) Women are out of touch with the company's operation. For example, **Women are unlikely to be familiar with the office software as before at work.** (2) This means that their presence in the workplace can influence companies' productivity and endanger the whole economy. **What's** more, (3) women pay closer attention to their babies, including reading educational babies' books in their free times instead of learning soft skills. As a consequence, they may become less driven by career success. They give priority to their domestic responsibilities.

(1) 这里需要加上 because，保持前后连贯。

(2) 这里可以用非限制性定语从句 which means.....

批注 [SQ1]: Impacts

批注 [SQ2]: 这里建议用 In this case

批注 [SQ3]: 删去

批注 [SQ4]: 小写

批注 [SQ5]: Be familiar with

批注 [SQ6]: 正式的写作中不要出现缩写词 what is

(3) 参考表达 women have to pay.....instead of learning practical skills, which is not good for their career.

In conclusion, maternity leave has put a strain on women's working and made the workforce less productive. It will make a huge positive difference to their family, although it can influence the economic development of a country.

(1) 段落像是单纯的句子堆砌，逻辑关系没有表现出来啊，要学会使用表示起承转合的连接词或短语。

(2) 开头段说的是 More benefits，所以文章应该侧重讲 advantages，必要时进行对比，结尾并没有再强调下自己的观点呀， although maternity leave..., advantages it brings to both family and the society are far more than disadvantages.
